Dermatologic Grand Rounds

Current controversies in dermatologic drug therapy

Stephen E. Wolverton, MD
Theodore Arlook Professor of Clinical Dermatology
Department of Dermatology
Indiana University

Wednesday, Jan. 22, 2014

Dermatologic Grand Rounds
8 to 8:45 a.m. — Registration
8:45 to 10 a.m. — Discussion
10:15 to 11:15 a.m. — Lecture

Activities approved for AMA PRA Category 1 Credit(s)™

Neilsen Library
125 Med Surg I
5 to 7 p.m.

The target audience for the Department of Dermatology Grand Rounds is attending physicians, fellows, community physicians and other health care professionals.

Statement of Purpose: The format will include lecture detailing diagnosis, management and therapeutic interventions for selected dermatologic topics, and occasional case presentations with review of interesting cases. Clinical test results and radiographic findings will also be included. Current landmark research findings will be discussed.

Accreditation statement: The University of California, Irvine School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Dermatologic Grand Rounds Global Objectives

• Summarize core competencies in Dermatology as identified by the Accreditation Council for Graduate Medical Education.
• Assessment and management of complex skin diseases including but not limited to cancer.
• Cite current research findings in the field of dermatology and dermatopathology.
• Discuss key issues in the delivery of dermatologic care to a wide range of therapeutic modalities and combination therapy to increase efficacy and minimize side effect profiles.

Designation statement: The University of California, Irvine School of Medicine designates this live activity for a maximum of 3 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Dermatologic Grand Rounds

Stephen E. Wolverton, MD, received his undergraduate degree at Ball State University with a B.S. as a Pre-Med major in 1975. Subsequently he attended medical school at the Indiana University School of Medicine, receiving an MD degree in 1979. Dr. Wolverton initially pursued a career in Family Practice, completing his residency at St. Elizabeth Medical Center in Dayton, Ohio in 1982. This residency was followed by a year in a junior faculty position at the University of Dayton, Ohio. Subsequent faculty positions have included Wright State University, Ohio State University, and the long-term faculty position in the Dermatology Department at the Indiana University School of Medicine (1990-date) where he was recently named the Theodore Arlook Professor of Clinical Dermatology. Dr. Wolverton’s long-term academic interest has been systemic drug use in Dermatology, focusing on all aspects of Drug Safety, including a more recent focus in the complex area of Drug Interactions. He is best known for his series of four books concerning Dermatologic Drug therapy: Systemic Drugs for Skin Diseases and Comprehensive Dermatologic Drug Therapy.
