UC Irvine Dermatology Residents

5:25 p.m.  Closing Remarks
Christopher Zachary, MBBS, FRCP

Please remember to complete the CME activity and speaker evaluations before the end of the event in order to receive your CME certificate.

Course Description:
This full day CME conference hosted by the UC Irvine Department of Dermatology aims to educate primary care providers at UC Irvine and in the surrounding communities as to some of the more common dermatoses they are likely to encounter in their practices, how to treat them and which patients might be better referred to a dermatologist for specialist treatment.

Attendees will be taught by our outstanding faculty on a diverse range of topics including acne, psoriasis, eczema, blistering diseases, skin infections, benign and malignant skin tumors, and aesthetic issues. This course will empower those present to more easily diagnose and treat their patients in the primary care setting, and is likely to reduce the need for specialist referrals for common dermatologic conditions.

Target Audience:
Healthcare providers working in the field of primary care.

Learning Objective:
At the conclusion of the activity, the participant should be able to recognize and manage uncomplicated skin diseases encountered in their clinical practice.

Accreditation Statement
The University of California, Irvine School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Designation Statement
The University of California, Irvine School of Medicine designates this live activity for a maximum of 7.5 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Disclosure Policy
It is the policy of the University of California, Irvine School of Medicine and the University of California CME Consortium to ensure balance, independence, objectivity and scientific rigor in all CME activities. Full disclosure of conflicts and conflict resolutions will be made prior to the activity in writing via handout materials, insert or syllabus.
